- **LIBRARY MANAGEMENT**

SYSTEM WHAT IS LIBRARY

MANAGEMENT SYSTEM

Library Management Software is an unique State of Art Library ManagementSoftware which is developed to help the Librarian to keep complete track of Books, Periodicals, Journals, Book bank, etc. It offers your users an advanced, comprehensive next generation library experience.

WHY LIBRARY MANAGEMENT SYSTEM?

- It's easy to use interface and immediate reporting makes things easier for theschool library staff. For easy arrangement, such type of system divides the books on Biographer name, Manuscript group, Publisher and more. With thehelp of barcode the Librarian can keep track of different records such as:
- Issue Date
- Return Date
- Book Catalogues With Different Genres
- Number Of Book Issued
- Number Of Books Available
- Collection & Calculation Of Fine On Individual Book

- A library management system is software that is designed to manage all the functions of a library. It helps librarian to maintain the database of new books and the books that are borrowed by members along with their due dates.

- This system completely automates all your library's activities. The best way to maintain, organize, and handle countless books systematically is to implement a library management system software.
- A library management system is used to maintain library records. It tracks the records of the number of books in the library, how many books are issued, or how many books have been returned or renewed or late fine charges, etc.

- You can find books in an instant, issue/reissue books quickly, and manage all the data efficiently and orderly using this system. The purpose of a library management system is to provide instant and accurate data regarding any type of book, thereby saving a lot of time and effort.

Modules Of Library Management System Software

section-heading

Mobile-Based-Application

Acquisition & Cataloguing

- The acquisition & cataloguing module of the library management system enables the librarian to select & buy books, journals, and other resources and create a database of the same for easy book search.

- The serial control module of the library software enables the librarians to handle or control processes such as subscription, renewals of books or their cancellations and generate accurate MIS reports.

- Management information systems or MIS reports related to the library allow the librarians to extract crucial data & information of

all the library transactions at a few clicks. Accurate MIS reports fostering better decision-making.

- A digital catalogue that enables the users to search for books, journals, or any other material by entering keywords such as the name of the book, its title, author's name, etc.
- Mobile - Online Public Access Catalogue or M-OPAC is a mobile-based smartphone app that enables users to search for any book via their smartphones by entering keywords such as author's name, title, etc.

BASIC OVERVIEW LIBRARY SYSTEM

- **ACCESSION REGISTER REPORT**

It maintains registers of Books, Journals & Periodicals. It is an official administrative document which keeps collection of objects in chronologicalorder of accession number.

- **Acquisition Module** : Acquisition in Web - Based Library Software administers the ordering, chasing, receiving and accessioning of new or replacement stock.

- PERIODICALS ACCESSION REGISTER

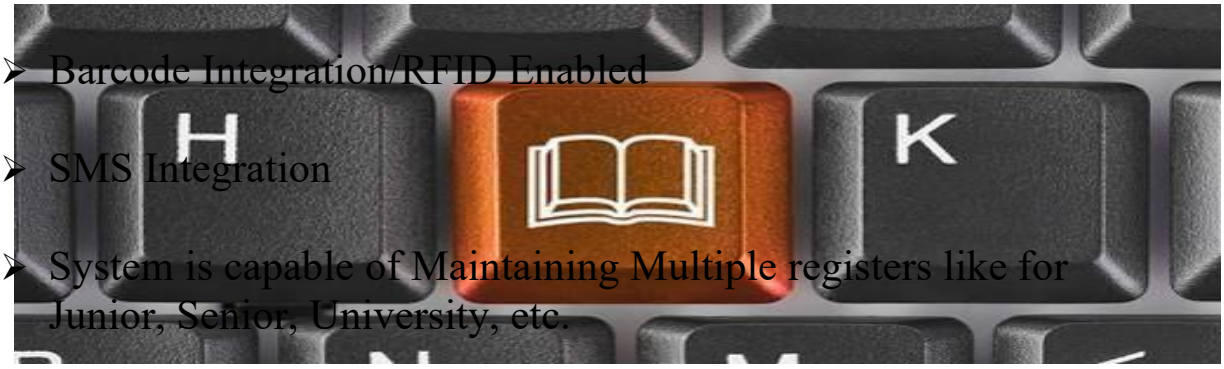
It maintains registers of Books, Journals & Periodicals. It is an official administrative document which keeps collection of objects in chronological order of accession number.

- **OPAC**

- BOOK SEARCH WITH ACCESSION: This provides an access for students tocheck books availability, Authors/Publishers, Department e

KEY FEATURES OF LIBRARY MANAGEMENT SYSTEM

- Internet Based Online & Offline Software



- Barcode Integration/RFID Enabled
- SMS Integration
- System is capable of Maintaining Multiple registers like for Junior, Senior, University, etc.
- Highly Secured System
- Password Protected System
- Regular Backup
- Export facility of Reports
- Supports Unicode (Multilingual)
- Faster & Optimized OP
